INTRODUCTION

For anyone who uses the Internet to access web browsers today, there will surely be times when our computer or laptop cannot connect to the Internet. In these times we often come across a game with pixel graphics that appear directly in our browser. Perhaps everyone knows the game of dinosaurs jumping over obstacles while waiting for the computer to connect to the Internet.

For our team's project Dino the game this time, we've up to date the color of the game, which is not simply black and white as all of us knew before.

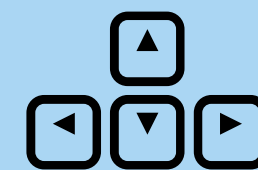

GAME RULES

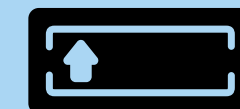

PLAY

Players take on the role of a dinosaur to jump over the obstacles that appear on the path by controlling the arrow markers

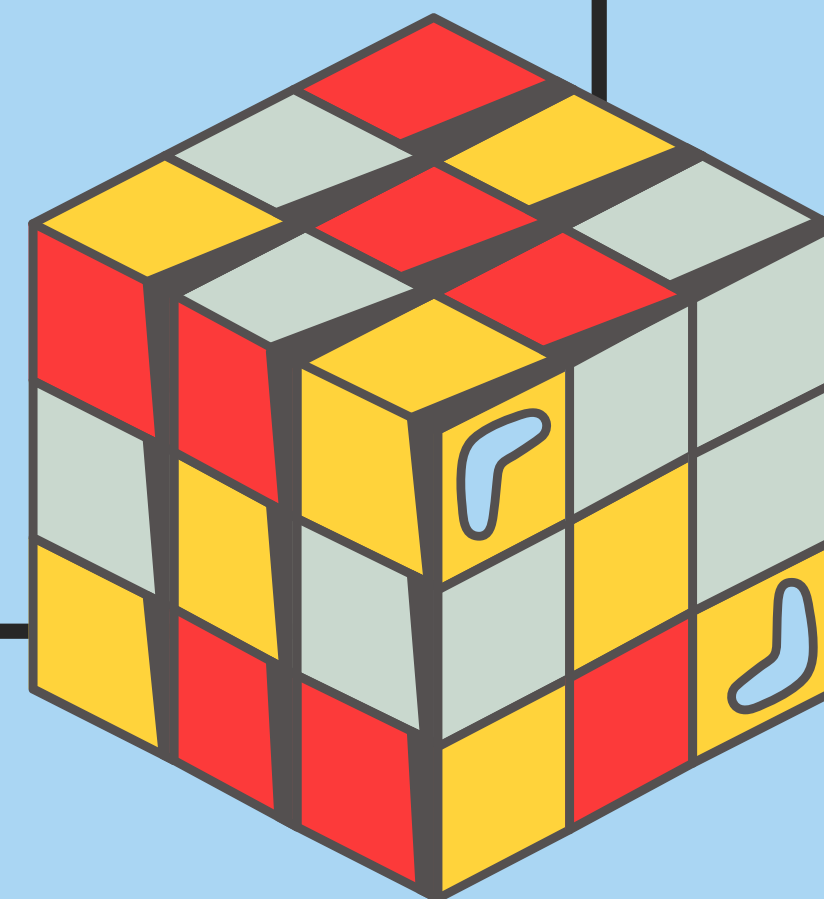

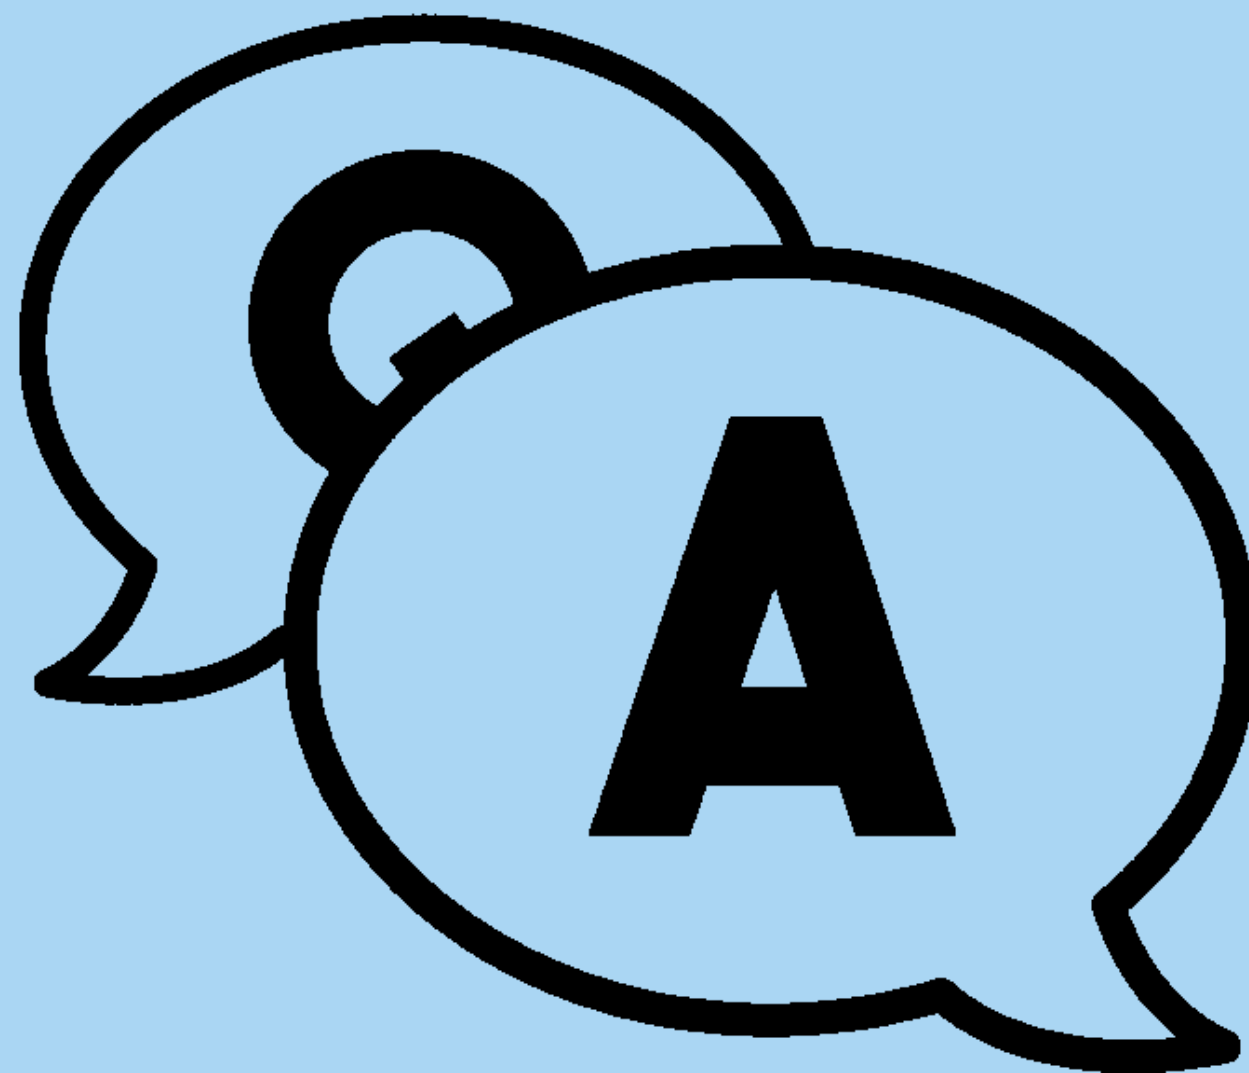

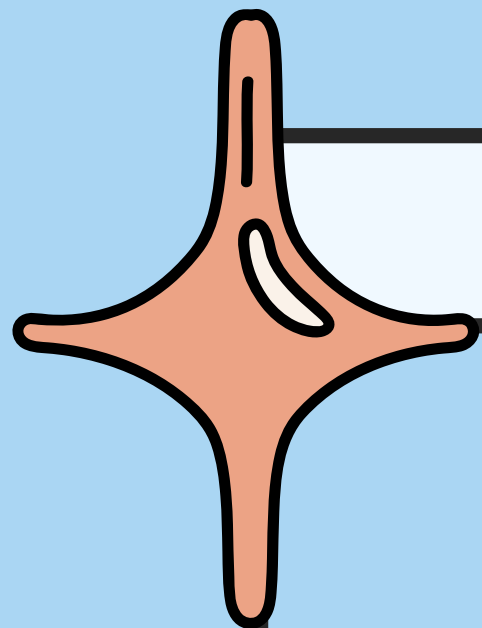

and shift

DEMO

THANK YOU FOR
